

**VSM NON-WOVEN
HAND PADS**

**Multipurpose abrasive for
finishing and cleaning**

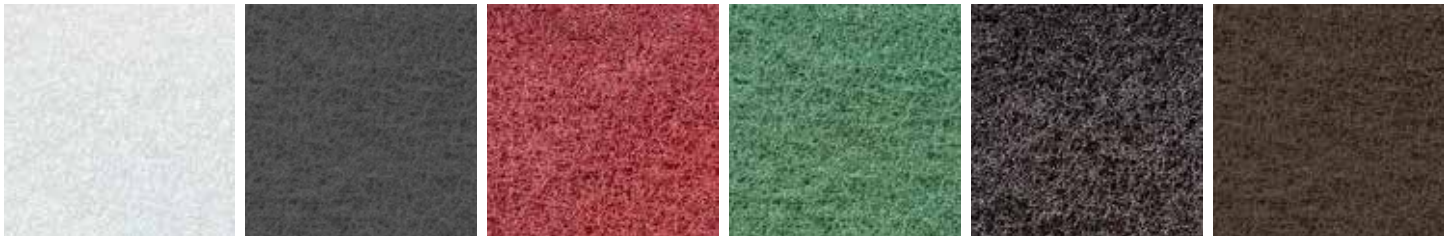

Multipurpose 6" x 9" hand pads

Our hand pads are constructed from non-woven fibers that have been impregnated with an abrasive grain, such as Aluminum Oxide or Silicon Carbide. The natural, open-web structure helps resist snagging and tearing while maintaining excellent flexibility. Suitable for wet or dry applications, our hand pads resist rust and oxidation. Ideal for a wide range of woodworking and metalworking applications.

IN-STOCK HAND PADS

Finer finish,
Less aggressive

Coarser finish,
More aggressive
