

**VSM SHOP ROLLS**

**General purpose abrasive for  
manual applications**

# Shop Rolls

VSM shop rolls are constructed from a universal Aluminum Oxide abrasive grain and a flexible cotton cloth backing that results in effective cutting and maximum durability. Given its name, shop rolls are ideal for “shop” environments as each roll is packaged in a cardboard dispenser for quick access, and may be cut to various lengths for both hand and machine sanding applications. They are ideal for general purpose sanding, deburring, surface cleaning and/or polishing a variety of material types.

Width	Length	VSM Series	Backing Material	Backing Flex	Special Feature	Grit Size											
						40	50	60	80	100	120	150	180	220	240	320	400

**PLEASE NOTE:** This table represents our standard shop roll offering. Other VSM series may be converted into shop rolls. Contact your Territory Manager for more details.

## What’s the difference?

- KK112F is more flexible, and resists undesirable loading.
- KK114F exhibits higher stock removal, with a longer lifespan.

## Shockingly low minimums

- When ordering KK112F, the minimum order quantity is 10 boxes.
- When ordering KK114F, the minimum order quantity is 1 box.

SYMBOL KEY	
TS	TOP SIZE (helps reduce friction and heat)
ST	STEARATE (helps prevent loading)
AS	ANTISTATIC
◆	Suitable for Wet Applications
■	Stocked Product
□	Available, Not Stocked
○	For low to medium contact pressure
◎	For medium contact pressure
●	For medium to high contact pressure

Availability is subject to change.
