The right grain for every application

With its tough grain characteristics and ability to generate new cutting edges, VSM ZIRCONIA ALUMINA combines very high stock removal with exceptional toughness in the grinding zone. It is an excellent choice for heavy stock removal applications.

SYMBOL KEY	
TS	TOP SIZE (helps reduce friction and heat)
ST	STEARATE (helps prevent loading)
AS	ANTISTATIC
♠	Suitable for Wet Applications
■	Stocked Product
□	Available, Not Stocked
○	For low to medium contact pressure
◎	For medium contact pressure
●	For medium to high contact pressure

Availability is subject to change.
